

THE CUTTING EDGE SOURCE FOR YOUR METAL NEEDS

Your sourcing partner for aluminum sheet,
coil, and circles with convenient locations
in Germantown, WI and Goodyear, AZ.

Services

Quality and Services That Exceed Expectations

Basic Metals, Inc. delivers exceptional service with personal attention to each individual order. Our expansive in-house inventory along with our commitment to timely delivery gives us the ability to give you a quick turnaround when you place your order. Our goal is to offer the flexibility and service you deserve without sacrificing quality. We work

with a worldwide network of reliable aluminum mills which gives us the capability to bring nearly any aluminum product into our plant when you need it and process your orders with the speed you demand. As your aluminum sourcing partner we know that you rely on us for quality and timely deliveries to make your production process run smoothly.

CUT-TO-LENGTH SHEET

A 60-inch and 72-inch Red Bud is used to deliver cut-to-length processing of aluminum, stainless steel, copper, brass, steel, and galvanized.

- Provides better than commercial tolerances at no additional cost
- Corrective leveling with our Herr-Voss Precision Leveler®
- Non-standard lengths at standard length prices
- Paper and PVC covering available

Size Specifications:

Gauge Capacities:	.016" thru .190"
Width Capacities:	12" thru 72"
Length Capacities:	12" thru 420"
Max. Coil Weight:	20,000 #
Coil I.D.:	20" thru 24"
Max. Coil O.D.:	72"

SHEARING

A state-of-the-art Cincinnati Shear is used to deliver shear processing of aluminum, stainless steel, copper, brass, steel, and galvanized.

- Digital Back Gauge for Superior Accuracy
- PVC covering available upon request

Size Specifications:

Gauge Capacities:	.010" thru 375"
Bed Size:	12'

SLITTER

A 60-inch Red Bud or 36-inch Paxson is used to deliver slitter processing of aluminum, stainless steel, copper, brass, steel, and galvanized.

- PVC covering available upon request
- Expertise in slitting bright and painted material
- In-House Slitters

Size Specifications:

Gauge Capacities:	.016" thru .190"
Width Capacities:	.250" thru 60"
Max. Coil Weight:	40,000#
Coil I.D.:	16"/20"/24"
Max. Coil O.D.:	72"

CIRCLE SHEARING

Circle shear processing of aluminum, stainless steel, copper, brass, steel, and galvanized.

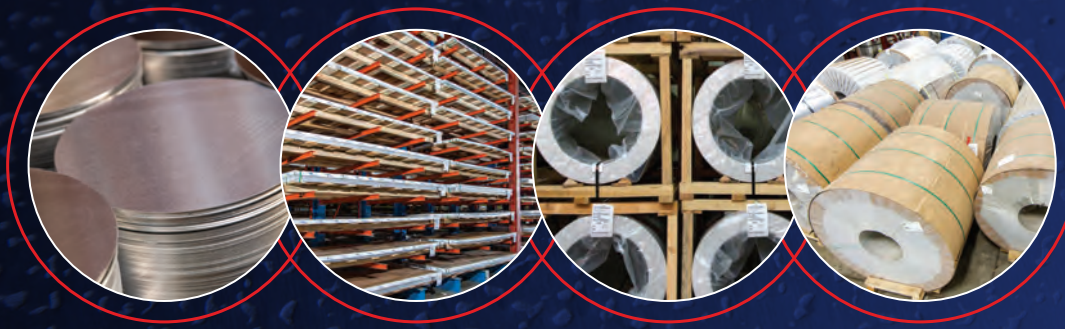

- PVC covering available upon request
- Custom sizes available upon request

Size Specifications:

Gauge Capacities:	.010" thru .190"
Diameters:	6" thru 72"

TOLL PROCESSING

Custom slit tolling, shear tolling or cut-to-length tolling for any of your material including aluminum, stainless steel, copper, brass, steel, and galvanized.

Products

A full service aluminum sourcing and processing provider with a special interest in cut-to-length aluminum sheet, slit aluminum coil, and aluminum circles. Our experienced staff works closely with

customers and supplies materials to your exact specifications in a wide range of gauges, widths, and lengths. This personal touch and focus on customer service makes Basic Metals, Inc. a cut above the rest.

ALUMINUM - SHEET

- Alloys: 1100, 2024, 3003, 3105, 5005, 5052, 5454, 6061, 7075 and many more
- Finishes: Mill finish, nameplate quality, one side bright, painted, tread plate and embossed patterns.

Size Specifications:

Gauge Capacities:	.010" thru .190"
Width Capacities:	.250" thru 72"
Length Capacities:	Up to 420"

ALUMINUM - COIL

- Alloys: 1100, 2024, 3003, 3105, 5005, 5052, 5454, 6061, 7075 and many more
- Finishes: Mill finish, nameplate quality, one side bright, painted, tread plate and embossed patterns

Size Specifications:

Gauge Capacities:	.010" thru .190"
Width Capacities:	.250" thru 72"
Above 72" available upon special request	

ALUMINUM - CIRCLES

- Alloys: 1100, 3002, 3003, 5052
- Custom sizes available upon request.
- New sizes added daily

Size Specifications:

Gauge Capacities:	.025" thru .190"
Diameter Capacities:	3 " thru 72"

ALUMINUM - PLATE

Many plate sizes are available upon request.

ALUMINUM - TUBE/EXTRUSIONS

Many sizes are available upon request.

- Daily ingot pricing
- Historical ingot graphs
- Calculators
 - Coil PIW
 - Pounds to linear feet
 - Linear feet to pounds
 - Coil OD
 - Weight per circle
 - Pounds per sheet
 - Density chart
- Alloys (for most common aluminum alloys)
 - Mechanical properties
 - Bend radii
- Tolerances
 - Gauge
 - Width
 - Lateral bow
- Complete in-stock list of circle inventory
